

# HUMBOLDT DISTILLERY

Humboldt Distillery is the first micro-distillery in Humboldt County, California, and the only in the region to produce certified organic spirits.

Humboldt County is home to the world's tallest trees, unusually long stretches of undeveloped coastline, pristine rivers, and a forest as old as the dinosaurs. The watershed that Humboldt Distillery sources its water from originates in Humboldt's old growth forests.

Founded by Abe Stevens as a result of his affinity for Humboldt County, chemistry, and process improvement, Humboldt Distillery's quality, award-winning spirits include Organic Vodka, Organic Spiced Rum, Organic Original Rum, and Humboldt's Finest.

What distinguishes our products? They taste great, they look good, and they are reasonably priced. Our vodka, spiced rum, and original rum are certified organic; the raw materials they're distilled from are grown sustainably and without synthetic fertilizers or pesticides.
