"...this herb-y perfumed, 80-proof vodka can definitely replace your gin. On the nose, fresh greenery is far forward along with softer floral tones like jasmine and orange blossom. The brisk fennel, thyme, lime and black pepper on the palate are well integrated for a slide-across-the-tongue texture."

"...a fragrant, botanical spirit that's one of the first of its kind. Nodding to the local community's recent marijuana boom, the vodka offers a distinct aroma of cannabis with a smooth finish that's reminiscent of a light gin. Stir it into a Martini or use it as a stand-in for your favorite gin cocktail recipes."
